

SCHOOL & EDUCATION LAW REVIEW

The effectiveness of waivers in schools

QLD appears to be one of the only States where there has been a failure to legislate the authority for parents to waive their children's rights in a liability waiver.

High School Students required to wear face masks at school

Schools are required to comply with the various public health directions and should do all things necessary to ensure that students comply with the direction when on school campus.

Employee rights to refusing a Covid Vaccination

Am I obligated, as an employee to receive a covid vaccination?
Unfortunately, the answer is not a simple yes or no.

NON-STATE SCHOOLS ACCREDITATION BOARD

The non-State schools sector is subject to strict and increasingly vigilant regulatory oversight from the Non-State Schools Accreditation Board (NSSAB). Our recent experience has seen a significant increase in compliance action from NSSAB, with schools required to demonstrate practical compliance with accreditation criteria – often in response to parent complaints or community concerns.

Our School Law Team can assist in:

- *Applications for accreditation;*
- *Advice on adhering to government funding eligibility criteria;*
- *Proactive compliance reviews and cyclical review preparation;*
- *Responding to regulatory compliance action by NSSAB.*
